

# SYSU International Relies on SnapServer® with GuardianOS® for Fast and Secure Backup

Leading premium importer and exclusive food brands distributor reduces cost, increases reliability with SnapServer

snapserver®

Data growth =  
Ease of scalability

Affordable pricing =  
Cost savings

Reliable =  
Increased Productivity

“ SnapServer allows us vastly improved performance, security and reliability protecting our investments, providing a flexible solution that will grow with our expanding business.”

- Christopher Eslava, IT Manager  
SYSU International

## The Challenge:

In 2010, SYSU Group of Companies implemented SAP ECC 6.0 ERP to help streamline its business processes. The organization implemented three system landscapes for their SAP ERP: SAP DEV, QAS and PRD. After utilizing the system for seven years, their existing data backup storage could no longer accommodate the required space and performance to efficiently backup their ever-growing infrastructure. In addition, they needed to backup newly implemented SAP BOBJ (Business Intelligence) system. Christopher Eslava, SYSU International's IT Manager was tasked with solving the problem of insufficient storage space, limited expandability and inadequate performance.

The organization needed a long-term solution to address the need for expandable and reliable high performance backup data storage. They also needed a cost-effective and flexible backup solution that could scale to the company's continued data growth.

## The Solution:

After evaluating Dell EMC, HPE, Synology and SnapServer, SYSU decided on SnapServer as it provided secure data storage with expandability and performance at an affordable price. The complete backup implementation was completed within 2 days. SYSU reports that with their SnapServer backup storage solution they are fully protecting their investment. An external auditor recently conducted a system audit of their backup and recovery system. They were impressed on how SYSU implemented it using SnapServer as their backup storage and how it seamlessly integrates with their third-party backup software. After only a few months of implementation of SnapServer, they have already recovered their initial investment because of the product's reliability and efficiency.

### SnapServer features and benefits

- Unified Storage-Managed file and block level access with SnapServer
- Dynamic RAID-Mix and match drives of different sizes to grow RAID arrays
- Advanced Security-Fully integrate existing Windows Active Directory Domain or UNIX with NIS or LDAP
- Snap Encrypted Continuous Replication (Snap ECR) - Disaster Recovery solution at no additional cost
- Snap Enterprise Data Replicator (Snap EDR) - Synchronize data across multiple sites with distributed replication
- Management-Setup, implement and maintain SnapServers with ease

“GuardianOS with SnapServer is extremely easy-to-use and highly reliable. I expect that we will be able to process far more data faster than ever before with these cost-effective enhancements. Definitely a worthwhile investment that will allow us to address continued growth while protecting our valuable data.”

- Christopher Eslava, IT Manager  
SYSU International

SYSU Distribution Center

## Conclusion:

With SnapServer and GuardianOS, SYSU International was able to store large volumes of file-based data on a single SnapServer. After careful evaluation, SYSU International discovered that SnapServer can effectively serve their requirement for secure high performance data storage, with expandability up to 960TB.

## About SYSU International:

For over 30 years, SYSU International Inc. has brought premium food brands to market. Starting as a small trading company, it has grown as the Philippines' leading importer and exclusive food brands distributor. Currently, it is the exclusive distributor of numerous name brands including Lee Kum Kee Chinese Sauces, San Remo Pasta, La Espanola Olive Oil, Tree Top Apple Juice, Smuckers Jam, JIF Peanut Butter, Goober Peanut Butter, TABASCO, Folgers, Tulip, Crisco Oil and Shortening, Regi-lait, Mom's Haus of Mushroom, Crystal Noodle, Optimo Suchero and Balducci. SYSU manufactures under its house brands, Clara Ole and McCormick and services toll-packing to other world-renowned brands.

Sales and support for Overland-Tandberg products and solutions are available in over 90 countries.
