

Service And Support

Protecting your data systems
Reducing unplanned downtime

Overland-Tandberg™ is a leading provider of data storage and protection solutions for small, medium and large businesses. With a heritage spanning more than 40 years, our products are designed to meet the modern day needs of businesses across all industry sectors.

Overland-Tandberg products are manufactured to the highest levels providing customers for maximum performance and reliability. Our global service and support teams are available in over 90 countries worldwide, providing support when you need it, 365 days a year.

Protecting data and maximizing the availability of IT systems is a critical business function. Overland-Tandberg has made selecting and obtaining the proper level of service and support for your product easy and affordable. Our service uplifts and warranty extensions serve as a complement to the standard product warranty, ensuring that our customers have the optimal level of service and support required to meet their particular needs.

Customers can choose to purchase service warranty uplifts up to a maximum of five years from the point of sale, or they can choose to purchase service warranty extensions on an annual basis. Service warranty uplifts may be purchased within 90 days of the initial hardware purchase, thereafter customers are required to purchase service warranty extensions. If a product warranty has expired for more than 60 days then a health check must be performed to ensure the unit is not faulty before a new warranty extension can be purchased.

In the unfortunate event that a new product fails within 30 days from purchase the failed unit will be replaced with a new unit from stock at no cost to the customer and the failed unit will be returned to Overland-Tandberg for analysis.

To support the needs of different customers in different industries, Overland-Tandberg is proud to offer 5x different levels of service and support.

- **Return To Base (RTB):** Repair/replacement within 14 days of receipt of faulty part
- **OverlandCare Bronze:** Advanced parts replacement (two business days)
- **OverlandCare Silver:** NBD onsite FRUs and NBD parts replacement CRUs
- **OverlandCare Gold:** NBD onsite FRU/CRUs
- **OverlandCare Platinum:** 24x7x4 onsite FRUs and CRUs (4hr. response, 365 days/year)

* FRU = Field replaceable unit

** CRU = Customer replaceable unit
